# Science Adventures Homeschool Program

A monthly educational program series offering topics in science, nature,  
and outdoor education.

Located in beautiful Wyandotte County Lake Park, the F. L. Schlagle Library offers monthly sessions of classes in science and nature education for homeschool families. Each month offers a new subject, with hands-on lessons and activities designed for children ranging from preschool and Kindergarten to middle school.

Registration is on a first come, first serve basis, with registration opening typically one to two months prior to the start of the upcoming season. A cost-recovery fee is required and helps to pay for necessary supplies and take-home educational materials.

For more information on this program, please contact us at 913-299-2384 or email us at [flsinfo@kckpl.org](mailto:flsinfo@kckpl.org).
